

# 2025 Early Birds

## Bicycle Training Race Series in Livermore

Help us celebrate our 38-year tradition with a new and improved Early Birds format. January is the perfect time of year for all riders to take time to acquire and practice pack racing skills. NCNCA leaders provide a progressive curriculum where riders practice their race day routines. From your arrival to start time, including warmup and course preview, as well as practicing your race craft. We consider the racers experience to be the most important part of the day that we have mentors leading pre-race clinics, observe during the race and lead a post-race debriefing. We are trying to provide a learning environment and have found that stripping away the placings, and prizes accelerates your learning. Traditions aside, 2025 has a new look and we hope that you will join us.
